**CPF-4-2019-1014M**

Dear Mr. Watson:

From June 3, 2019 to September 27, 2019, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Enable Gas Transmission's (Enable) procedures in Oklahoma City, Oklahoma. As a result of the inspection, Enable was issued a Notice of Amendment on December 30, 2019, which proposed amendment of your procedures.

Enable submitted its amended procedures on June 24, 2020. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

MARY LOUISE  
MCDANIEL
