ELECTRONIC MAIL - RETURN RECEIPT REQUESTED

February 19, 2021

Dan Callens
Chief Operating Officer
Cameron LNG, LLC
2925 Briarpark Drive, Suite 1000
Houston, Texas 77042

CPF 4-2019-3001

Dear Mr. Callens:

On July 30, 2019, the Pipeline and Hazardous Material Safety Administration (PHMSA) issued Cameron LNG a Notice of Probable Violation, Proposed Penalty, and Proposed Compliance Order for alleged violations for §193.2011 and §193.2017. On September 20, 2020, PHMSA and Cameron LNG entered into a Consent Agreement for the items included in the Notice. In the terms of the agreement, Cameron LNG agreed to modify its Emergency Response Procedures to ensure all events required to be reported under §191.5 were incorporated.

Cameron LNG submitted its revised Emergency Response Procedures on November 20, 2020. The revised procedures included the reporting requirements required under §191.5. Based on our review of the documentation provided, it has been determined that you have fundamentally complied with the terms of the Consent Agreement and that this case is now considered closed.

Should you have questions, please do not hesitate to contact me.

Sincerely,

Mary L. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
