Dear Mr. Poarch:

From April 20, 2020 through September 02, 2020, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected ARM Midstream LLC's (ARM) hazardous liquid transmission pipeline system located in Texas and New Mexico. As a result of the inspection, PHMSA issued a Notice of Amendment to ARM on November 2, 2020, which proposed amendments to its procedures.

ARM/SCM submitted its final amended procedures on April 28, 2021. PHMSA staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
