Dear Mr. Morgan:

From April 6, 2020 through September 11, 2020, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, inspected Centurion Pipeline L.P.'s (Centurion) procedures for operations and maintenance in Houston, Texas. As a result of the inspection, Centurion was issued a Notice of Amendment on December 22, 2020, which proposed amendment of its procedures.

Centurion submitted its amended procedures on January 19, 2021. PHMSA staff reviewed the amended procedures, and the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
