Dear Mr. White:

On July 15, 2019 through October 23, 2019, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Targa NGL Pipeline Company's (Targa) procedures in Houston, Texas. As a result of the inspection, Targa was issued a Notice of Amendment on October 6, 2020, which proposed amendment of your procedures.

Targa submitted its amended procedures on November 5, 2020. My staff has reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
