Denver, Colorado 80202

**CPF 4-2021-026 NOA**

Dear Mr. Green

From May 11, 2020 through August 31, 2020, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected DCP Midstream's (DCP) procedures for operation and maintenance in Houston, Texas, via video teleconference. As a result of the inspection, DCP was issued a Notice of Amendment on March 1, 2021, which outlined inadequacies in its procedures.

DCP submitted its revised procedures prior to the issuance of the Notice on October 28, 2020. PHMSA staff reviewed these procedures and determined them to be adequate; therefore, as indicated in the Notice no further correspondence was required from DCP. According to 49 CFR § 190.206, an operator is allowed 30 days following receipt of a notice to submit written comments, revised procedures, or a request for a hearing under § 190.211.

This letter is to inform you that this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E.  
Director, Southwest Region  
Pipeline and Hazardous Materials Safety Administration
