Dear Mr. Yatauro:

From June 15, 2020 through October 30, 2020, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code (U.S.C.), inspected the *DOT Liquids Manual* and the *Integrity Management Manual* for ExxonMobil's Central Inspection System, operating under Mobil Pipeline Company, ExxonMobil Pipeline Company, and Mustang Pipeline LLC (collectively, ExxonMobil Pipeline Company) located in and around Lockport, Illinois. As a result of the inspection, PHMSA issued a Notice of Amendment to ExxonMobil Pipeline Company on May 3, 2021, which required amendments to its procedures.

ExxonMobil submitted its amended and supplementary procedures on July 15, 2021, and August 31, 2021. PHMSA staff has reviewed these procedures, and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
