Case Closure Letter

Dear Mr. Johnston:

On July 25 and 27, 2005, a representative from Pipeline Hazardous Material Safety Administration (PHMSA) Western Region, pursuant to Chapter 601 of 49 United States Code, conducted an on-site inspection of Pacific Operators Offshore LLC's (Pacific Operators) written procedures contained within its Operations and Maintenance (O&M) Procedural Manuals. Our representative also reviewed records to ensure that the O&M procedures were properly implemented. As a result of the inspection, a Final Order was issued on April, 22, 2010 ordering Pacific Operator to pay a civil penalty and complete certain corrective actions outlined in the terms of the compliance order.

My staff recently verified that Pacific Operators has paid the civil penalty and terms of the compliance order have been satisfied. This letter is to inform you no further action is necessary and this case is considered closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
