Mr. Chris Hoidal  
Director, Western Region  
Pipeline and Hazardous Materials Safety Administration  
12300 W. Dakota Ave., Suite 110  
Lakewood, CO 80228

**Reference: CPF 5-2008-0015W**

**Subject: Response to a DOT "Warning Letter" Concerning Line Marker Letter Size.**

Dear Mr. Hoidal:

Mr. Nguyen, of the DOT, conducted an onsite inspection of our pipeline facility from February 19 to February 21, 2008. A result of that inspection was a DOT "Warning Letter" notifying Midway Sunset Cogeneration Company (MSCC) that the lettering on MSCC line markers was not sized per regulation requirements. Please find attached, photos of the new line markers with the correct letter size; MSCC proof of purchase; and photos showing installed markers. MSCC embraces the importance of public safety and, therefore, wishes not only to meet the letter of the law but the overriding intent.

As such, MSCC appreciates the DOT's review of the circumstances and, especially, the DOT's consideration not to conduct additional enforcement action or penalty assessment proceedings at this time. MSCC commends Mr. Nguyen's professional demeanor during the inspection. It proved an excellent opportunity for MSCC's employees to interact with and learn from a knowledgeable, pleasant, DOT representative.

If you have any questions or comments, please email me at [GJans@Edisonmission.com](mailto:GJans@Edisonmission.com); or call me at (661) 768-3000 ext. 3018.

Sincerely,

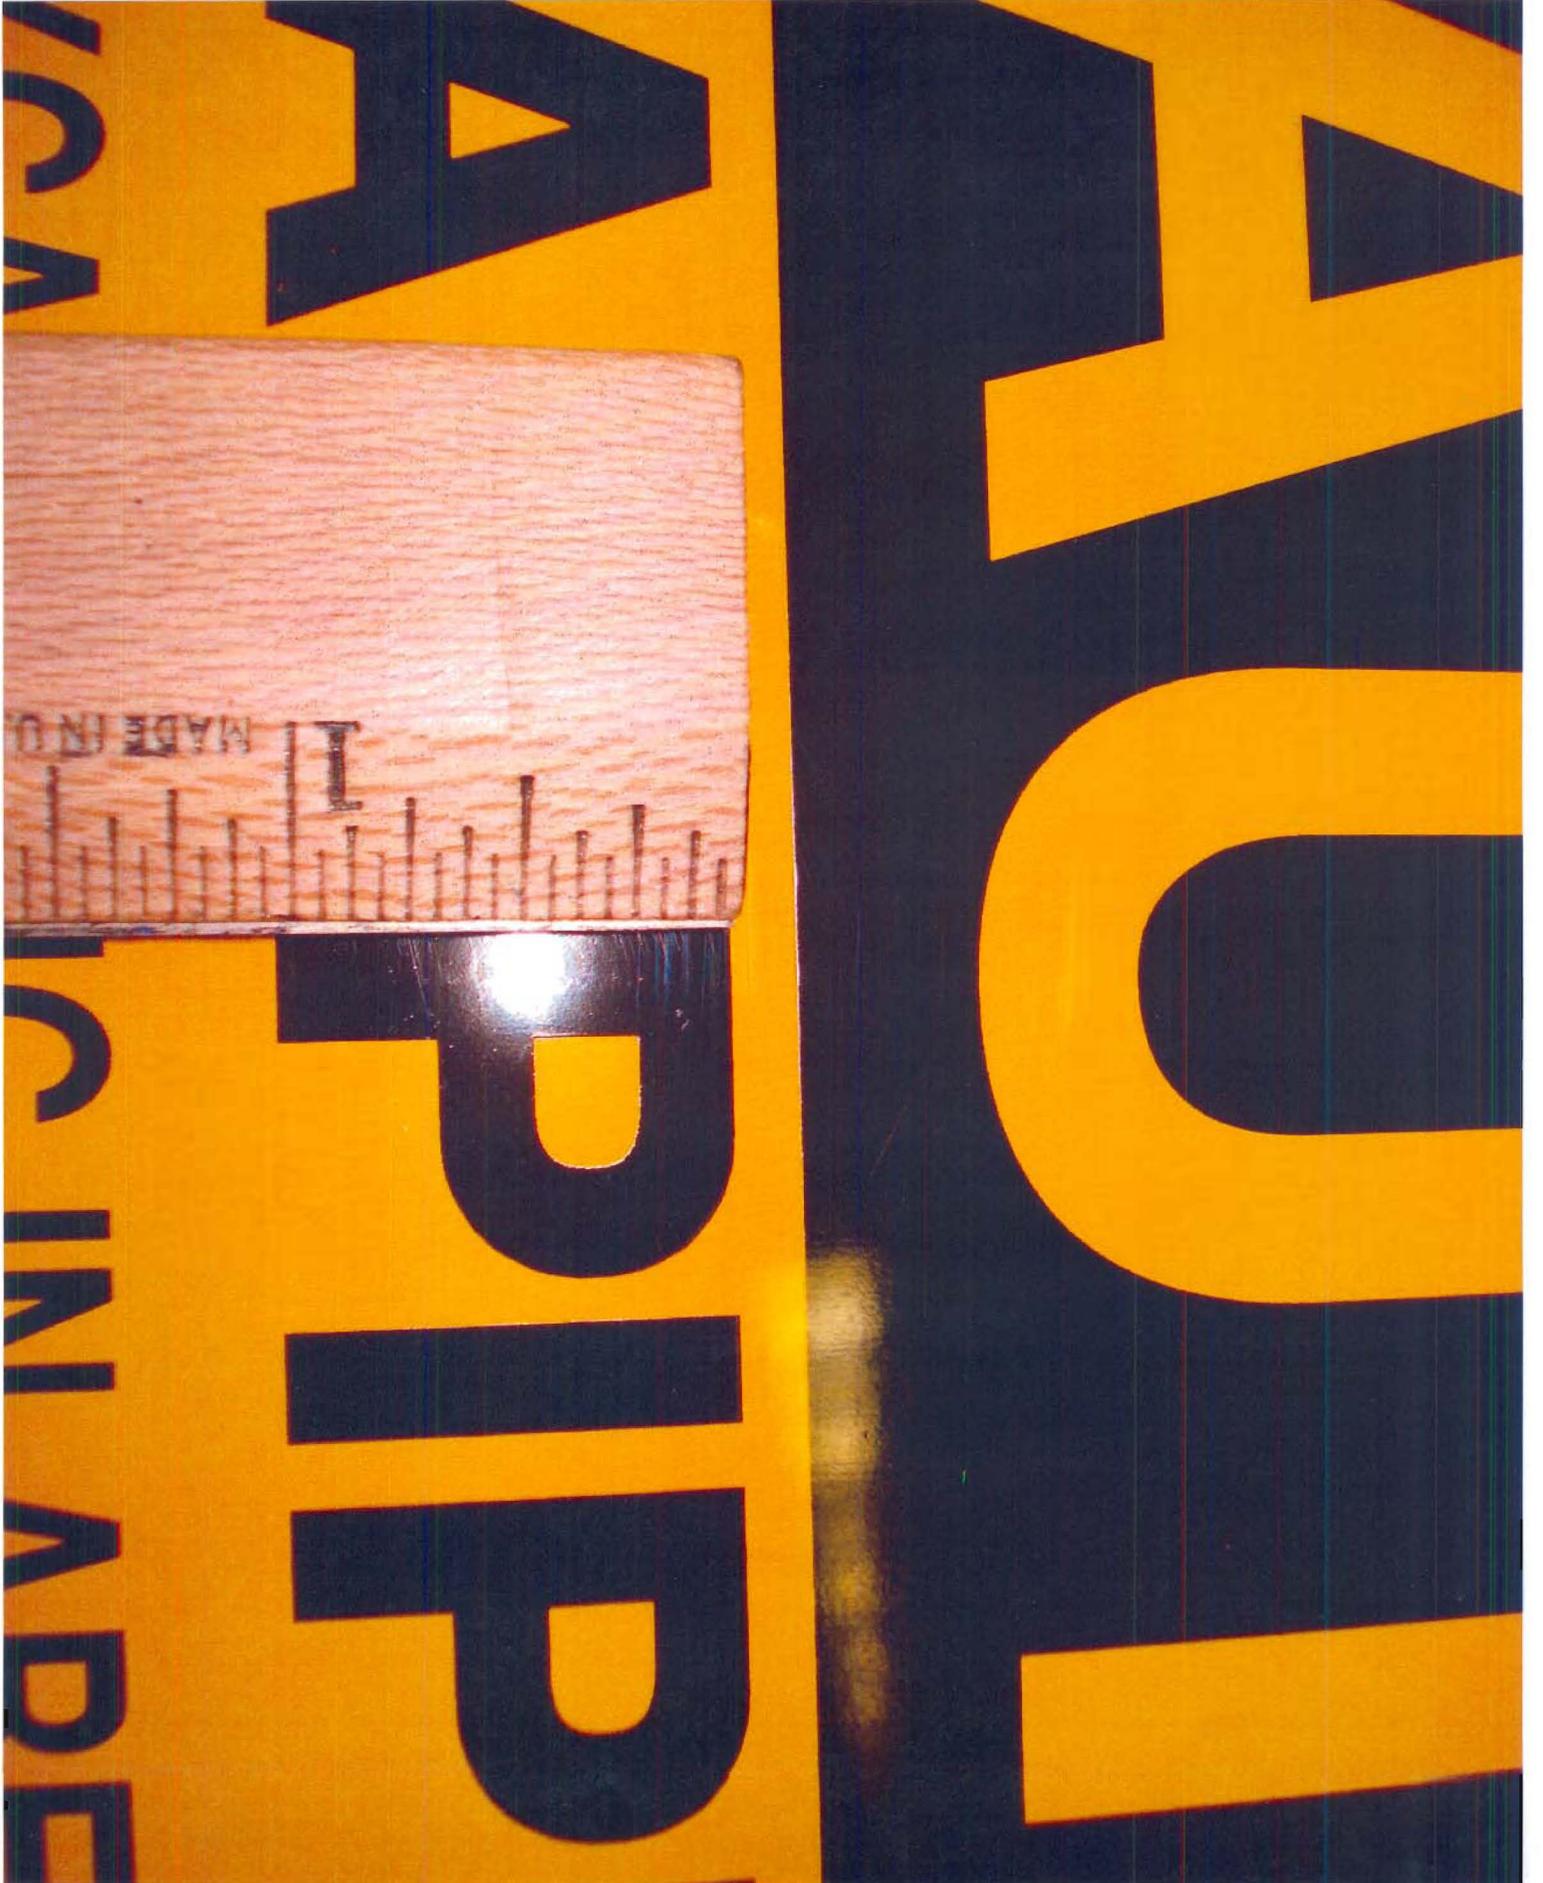

A handwritten signature in black ink, appearing to read "Greg Jans". The signature is fluid and cursive, with the first name "Greg" and last name "Jans" clearly distinguishable.

Greg Jans  
Plant Manager
