Dear Mr. Hoidal,

On September 27, 2010, TransCanada - GTN received a letter from your office dated September 21, 2010 (CPF 5-2010-1005) titled "Notice of Probable Violation and Proposed Compliance Order."

TransCanada does not contest the Compliance Order and intends to take the steps contained therein. We have already taken steps to correct the deficient pipe-to-soil readings and further steps are in progress. We will report the progress of those steps and the costs associated as soon as they are available.

Also, please note that our Regional office has relocated; our new mailing address is:

If you have any other questions, please call or write me.

Sincerely,
