Dear Mr. Robertson:

On June 1-2, 2011, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Alyeska Pipeline Service Company's Public Awareness Program procedures in Anchorage, Alaska. As a result of the inspection, Alyeska Pipeline Service Company was issued a Notice of Amendment on June 22, 2011, which proposed amendment of your procedures.

Alyeska Pipeline Service Company submitted its amended procedures on September 26, 2011. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dennis Hinnah  
Deputy Director, Western Region  
Pipeline and Hazardous Materials Safety Administration
