Dear Mr. Britton:

On September 9-12, 2012, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Fairbanks Natural Gas' (FNG) procedures in Fairbanks, Alaska. As a result of the inspection, FNG was issued a Notice of Amendment on February, 19, 2013, which proposed amendment of your procedures.

FNG submitted its amended procedures on April 29, 2013. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dennis Hinnah
Deputy Director, Western Region
Pipeline and Hazardous Materials Safety Administration
