Closure Letter**

Dear Mr. Lucas:

On February April 24, 2012, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, inspected Edison Mission's Operations and Maintenance procedures for their Public Awareness Program in Fellows, California. As a result of the inspection, Edison Mission was issued a Notice of Amendment on April 26, 2013, which proposed amendment of your procedures.

Edison Mission submitted its amended Public Awareness Program procedures on May 22, 2013. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal

Director, Western Region
Pipeline and Hazardous Materials Safety Administration
