Mr. Lyle Fedje
Director, Pipeline Operations
CPN Pipeline Company
60 River Road
Rio Vista, CA 94571

CPF 5-2014-0002M

Dear Mr. Fedje:

On May 5-9, 2014, June 9-12, 2014, and July 21-25, 2014, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of CPN Pipeline Company's Operation and Maintenance (O&M) and Integrity Management Program (IMP) procedures in Rio Vista, CA. As a result of the inspection, CPN Pipeline Company was issued a Notice of Amendment on November 12, 2014, which proposed amendment of your procedures.

CPN Pipeline Company submitted its amended procedures on December 9, 2014. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case (CPF 5-2014-0002M) is now closed. Please note that the Notice of Probable Violation, CPF 5-2014-0006, is still being processed. Thank you for your cooperation.

Sincerely,

Terence A. Larson for Chris Hoidal
