**CPF 5-2016-0005M
Closure Letter**

Dear Mr. Newton:

On December 15 through 17, 2015, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of The City of Susanville Gas Transmission System (Susanville) procedures for Operations and Maintenance in Susanville, California. As a result of the inspection, Susanville was issued a Notice of Amendment, and after a hearing, was issued an Order Directing Amendment on June 1, 2018, which directed amendment of your procedures.¹

Susanville submitted its amended procedures on June 28, 2019. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in the Order Directing Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
