**CPF 5-2021-018-NOA
Closure Letter**

Dear Mr. D'Andrea:

On December 14 through 18, 2020, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), and the Washington Utilities and Transportation Commission (WUTC), pursuant to Chapter 601 of 49 United States Code, inspected Olympic Pipeline Company's (Olympic) procedures for control room operations in Renton, Washington. As a result of the inspection, Olympic was issued a Notice of Amendment on June 11, 2021, which proposed amendment of your procedures.

Olympic submitted its amended procedures on July 8, 2021. My staff reviewed the amended procedures, and it appears the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
