CASPER, WYOMING 82601**

Reference: OpID No. **1960**

**CPF 9-2010-5005W**

Dear Mr. True:

As of April 15, 2010, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code audited your Management Information System (MIS) submittal and determined that no drug or alcohol testing data was received or entered for calendar year (CY) 2009. In addition, a PHMSA representative contacted Mr. Ken Dockweiler by telephone on May 20, 2010 regarding this matter. While a response or resolution was indicated, nothing has been received as of the date of this letter.

As a result of this audit, it appears that you have committed probable violations of the Pipeline Safety Regulations, Title 49, Code of Federal Regulations. The items audited and the probable violations are:

**1. § 199.119(a) Reporting of anti-drug testing results**

Each large operator (having more than 50 covered employees) shall submit an annual MIS report to PHMSA of its anti-drug testing using the Management Information System (MIS) form and instructions as required by 49 CFR Part 40 (at [§40.26] and appendix H to part 40) not later than March 15\* of each year for the prior calendar year (January 1 through December 31). The Administrator shall require by written notice that small operators (50 or fewer covered employees) not otherwise required to submit annual MIS reports to prepare and submit such reports to PHMSA.

**\* Note: An extension was granted to all operators to file CY2009 MIS data not later than April 15, 2010**

**Probable Violation 1:** No MIS drug testing report received.

**Bases for the Violation 1:** According to the Drug and Alcohol Management Information System (DAMIS) database, there is no drug testing data entered in DAMIS to indicate a MIS report was submitted either electronically or through the MIS paper form (OMB No. 2105-0529).

**2. § 199.229(a) Reporting of alcohol testing results.**

Each large operator (having more than 50 covered employees) shall submit an annual MIS report to PHMSA of its alcohol testing results using the Management Information System (MIS) form and instructions as required by 49 CFR part 40 (at [§40.26] and appendix H to part 40), not later than March 15\* of each year for the previous calendar year (January 1 through December 31). The Administrator may require by written notice that small operators (50 or fewer covered employees) not otherwise required to submit annual MIS reports to prepare and submit such reports to PHMSA.

**\* Note: An extension was granted to all operators to file CY2009 MIS data not later than April 15, 2010**

**Probable Violation 2:** No MIS alcohol testing report received.

**Bases for the Violation 2:** According to the Drug and Alcohol Management Information System (DAMIS) database, there is no alcohol testing data entered in DAMIS to indicate a MIS report was submitted either electronically or through a MIS paper form (OMB No. 2105-0529).

Under 49 United States Code, § 60122, you are subject to a civil penalty not to exceed \$100,000 for each violation for each day the violation persists up to a maximum of \$1,000,000 for any related series of violation. We have reviewed the circumstances and supporting documents involved in this case, and have decided not to conduct additional enforcement action or penalty assessment proceedings at this time. We advise you to correct the item(s) identified in this letter. Failure to do so will result in **BUTTE PIPELINE CO** being subject to additional enforcement action.

A reply to this letter is not required. If you choose to reply please refer to **CPF 9-2010-5005W**. We have reviewed the circumstances and supporting documents involved in this case, and have decided not to conduct additional enforcement action or penalty assessment proceedings at this time. We advise you to correct the items identified in this letter within 30-days of receipt of this letter. MIS submissions, replies or questions can be addressed to:
