Dear Mr. Smith:

From April 9, 2019 to April 11, 2019, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Shell Pipeline Co., L.P. (Shell)'s Falcon Ethane Pipeline construction project in Houston, Texas. As a result of the inspection, Shell was issued a Notice of Amendment on July 16, 2020, which proposed amendment of your procedures.

Shell submitted its amended procedures on July 27, 2020. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
