Dear Mr. Patterson:

On July 1, 2020, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Southern Star Central Gas Pipeline, Inc.'s procedures in Blackwell, Oklahoma. As a result of the inspection, Southern Star Central Gas Pipeline, Inc. was issued a Notice of Amendment on May 20, 2021, which proposed amendment of your procedures.

Southern Star Central Gas Pipeline, Inc submitted its amended procedures on May 26, 2021. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
