Dear Mr. Akley:

From November 23, 2020 to November 25, 2020, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Hopkinton LNG Co's (Hopkinton) procedures in Hopkinton, Massachusetts. As a result of the inspection, Hopkinton was issued a Notice of Amendment on June 8, 2021, which proposed amendment of your procedures.

Hopkinton submitted its amended procedures on July 8, 2021. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
