Dear Mr. Sutton:

On July 7 through July 10, 2020, an inspector from the California Geologic Energy Management Division (CalGEM), acting as an agent for the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code inspected Central Valley Gas Storage, LLC's (CVGS) procedures for its underground natural gas storage facility (UNGSF) wellpad near Princeton, California.

As a result of the inspection, CVGS was issued a Notice of Amendment on August 12, 2021, which proposed amendment of your procedures.

CVGS submitted its amended procedures on August 31, 2021. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
