Mr. Roger Blair
President, US Energy
WSP USA Inc.
16285 Park Ten Place, 4th Floor
Houston, Texas 77005

CPF 1-2022-006-NOA

Dear Mr. Blair:

From May 11, 2021 through May 14, 2021, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of WSP USA, Inc.'s (WSP) procedures, including its integrity management plan, for its underground natural gas storage facility in Jefferson County, Texas. As a result of the inspection, WSP was issued a Notice of Amendment on January 13, 2022, which proposed amendment of your integrity management plan.

WSP submitted its amended integrity management plan on January 31, 2022. My staff reviewed the amended integrity management plan, and your commitment to further revise the plan, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
