Dear Mr. Kean:

From June 21, 2021 through September 15, 2021, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Kinder Morgan Liquid Terminals, LLC's (KMLT) procedures in Cincinnati and Dayton, Ohio, Indianapolis, Indiana, and Argo and Wood River, Illinois. As a result of the inspection, KMLT was issued a Notice of Amendment (NOA) on March 15, 2022, which proposed amendment of your procedures. KMLT submitted its amended procedures on March 28, 2022. On May 26, 2022 PHMSA held a meeting to address its concerns with KMLT regarding the inadequacies identified in the amended procedures. KMLT re-submitted its amended procedures on May 26, 2022. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
