CPF 1-2022-072-NOA

Dear Mr. Gillies:

From July 6, 2021 through July 30, 2021, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted a pipeline safety inspection of Portland Pipe Line Corporation's (Portland) procedures for control room management of its South Portland, Maine control room. As a result of the inspection, Portland was issued a Notice of Amendment on November 17, 2022, which proposed amendment of your procedures.

Portland submitted its amended procedures on December 15, 2022. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
