Dear Mr. Stauss:

From June 21, 2021, through June 25, 2021, inspectors from the California Geologic Energy Management Division (CalGEM), acting as an agent for the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Gill Ranch Storage LLC's (GRS) procedures for the Gill Ranch Storage LLC underground natural gas storage (UNGS) facility in Madera County, California.

As a result of the inspection, GRS was issued a Notice of Amendment (Notice), dated January 12, 2023. In response to the Notice, GRS submitted revised procedures on February 9, 2023.

My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

P.P.

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
