Dear Mr. Harris:

On September 14, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code National Fuel Gas Supply Corporation's (NFG) Operations and Maintenance (O&M) procedures as part of an inspection of Special Permit PHMSA-2017-0090 in Kane, Pennsylvania. As a result of the inspection, NFG was issued a Notice of Amendment (NOA) on February 2, 2023, which proposed amendment of your procedures. NFG submitted its amended procedures on March 06, 2023, with cover letter dated March 3, 2023. NFG further revised its procedures following PHMSA's request to do so during meeting held March 23, 2023. NFG re-submitted its amended procedures on April 21, 2023. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
