Dear Mr. Hastings:

From August 16 , 2022 through August 18, 2022, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, conducted an underground natural gas storage inspection of WBI Energy Transmission, Inc.'s (WBI) procedures for its Elk Basin Storage Field in Park County, Wyoming. As a result of the inspection, WBI was issued a Notice of Amendment on February 2, 2023, which proposed amendment of your procedures.

WBI submitted its amended procedures on February 8, 2023. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
