February 2, 2023

Mr. Kenneth Foyil
Vice President Operations
Cadeville Gas Storage, LLC
598 Minden Street, Suite A
Ruston, Louisiana 71270

CPF 1-2022-007-WL

Dear Mr. Foyil:

From October 4, 2022, through October 6, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected Cadeville Gas Storage, LLC's (CGS) Cadeville Gas Storage Field in Ouachita County, Louisiana.

As a result of the inspection, it is alleged that you have committed a probable violation of the Pipeline Safety Regulations, Title 49, Code of Federal Regulations (CFR). The item inspected and the probable violation is:

1. **§ 192.12 Underground natural gas storage facilities.**
 - (a) ...
 - (c) ***Procedural manuals.*** Each operator of a UNGSF must prepare and follow for each facility one or more manuals of written procedures for conducting operations, maintenance, and emergency preparedness and response activities under paragraphs (a) and (b) of this section. Each operator must keep records necessary to administer such procedures and review and update these manuals at intervals not exceeding 15 months, but at least once each calendar year. Each operator must keep the appropriate parts of these manuals accessible at locations where UNGSF work is being performed. Each operator must have written procedures in place before commencing operations or beginning an activity not yet implemented.

CGS failed to meet the requirements of § 192.12(c). Specifically, CGS failed to review and update its Operations and Maintenance (O&M) manuals and Emergency Response Plan (ERP) at intervals not to

exceed 15 months, but at least each calendar year.

During the inspection, PHMSA found that CGS's records indicated its UNGS O&M manuals and ERP were reviewed and updated on 5/21/2021 and 09/21/2022, exceeding the 15-month interval requirement by 1 month.

Therefore, CGS failed to meet the requirements of § 192.12(c) regarding the interval for reviewing and updating its O&M and ERP manuals.

Under 49 U.S.C. § 60122 and 49 CFR § 190.223, you are subject to a civil penalty not to exceed \$257,664 per violation per day the violation persists, up to a maximum of \$2,576,627 for a related series of violations.
