Dear Mr. Wortman:

From April 25, 2022 through May 20, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code conducted an inspection of Kiantone Pipeline Corp.'s (Kiantone) procedures and records in Warren, Pennsylvania. As a result of the inspection, Kiantone was issued a Notice of Amendment (NOA) on March 16, 2023, which proposed amendment of your procedures. On April 13, 2023, Kiantone provided its response to the NOA as well as the subsequent amended procedures. On April 25, 2023, PHMSA addressed additional concerns with Kiantone regarding the inadequacies identified in the amended procedures. Kiantone re-submitted its amended procedures from May 3, 2023 through May 5, 2023. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
