Dear Mr. Floerke:

From August 8, 2022, to October 21, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected MPLX LP's (MPLX) procedures in Denver, Colorado. As a result of the inspection, MPLX was issued a Notice of Amendment on April 13, 2023 requiring MPLX to amend certain aspects of its procedures.

MPLX submitted its amended procedures on June 13, 2023. On August 1, 2023, PHMSA met with MPLX to address its concerns regarding inadequacies in the amended procedures. MPLX submitted further amended procedures on August 4, 2023. My staff reviewed the further amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
