RE: CPF 1-2026-024-NOA – NOTICE OF AMENDMENT – TC ENERGY RESPONSE

Dear Mr. Burrough,

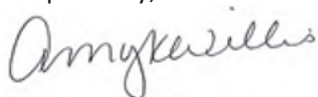

On March 16, 2026, TC Energy, on behalf of its subsidiary Tuscarora Gas Transmission Company (Tuscarora), received CPF 1-2025-024-NOA – Notice of Amendment (Notice). TC Energy has reviewed the Notice and is not contesting the enforcement.

TC Energy has revised the procedure *Valve and Valve Actuator Inspection and Servicing Rev. 03* (04/01/2024) to include a table of approved valve lubricants, provided guidance for technicians to obtain OEM specifications, added *Appendix B – Lube Quantities and Full-Service Valve Capacities*, and added *Appendix C – Lubricant/Sealant Recommendations*. TC Energy has enclosed with this letter a redlined copy of the revised procedure (*Valve and Valve Actuator Inspection and Servicing Rev 05 Redlines*).

The revised procedure will be published to TC Energy's Control Document Library on July 1, 2026 and will be available to all TC Energy employees. By taking these actions, TC Energy contends the requirements of the Notice have been satisfied.

Should you wish to discuss, please contact me at (281)906-8467.

Respectfully,

A handwritten signature in dark ink, appearing to read "Amy Willis", written in a cursive style.

Amy Willis
Director, Pipeline Safety Compliance US Natural Gas
