CPF 2-2012-6022M

Dear Mr. Collier:

From May 7-11 and August 13-16, 2012, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Southern Region, Office of Pipeline Safety inspected the Buckeye Development & Logistics, LLC (Buckeye) written operations and maintenance (O&M) procedures manual in Macon, GA and Goldsboro, NC, pursuant to Chapter 601 of 49 United States Code. As a result of the inspection, PHMSA issued a Notice of Amendment (NOA) on October 29, 2012.

On November 28, 2012, Buckeye sent an email to the Southern Region requesting a time extension to respond to the NOA. I granted an extension until January 15, 2013, via return email on the same day.

The PHMSA Southern Region received your written response to the NOA dated January 14, 2013. We have reviewed the responses and find them adequate. This letter is to inform you that Buckeye has complied with the terms of the NOA and that no further actions are necessary with regards to the NOA. This case is now closed.

Please be advised that this letter refers only to the NOA (**CPF 2-2012-6022M**) and not to any other PHMSA pending cases, if any. Also be advised that nothing herein states or implies that the above described O&M procedures meet the requirements of the federal pipeline safety regulations or that the O&M procedures are approved. The pipeline system and O&M procedures remain subject to inspection by PHMSA.

Sincerely,

Wayne T. Lemoi
Director, Office of Pipeline Safety
PHMSA Southern Region
