CERTIFIED MAIL - RETURN RECEIPT REQUESTED

June 5, 2013

Mr. Theopolis Holeman
Group Vice President of U.S. Operations
East Tennessee Natural Gas Company
5400 Westheimer Court
Houston, TX 77056

CPF 2-2013-1003M

Dear Mr. Holeman:

From June 11, 2012, to June 21, 2012, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Southern Region, Office of Pipeline Safety, pursuant to Chapter 601 of 49 United States Code, inspected the East Tennessee Natural Gas Company's (ETNG's) written Integrity Management Program (IMP) procedures at your Houston headquarters office pursuant to Chapter 601 of 49 United States Code.

The PHMSA Southern Region received and reviewed the amended procedures ETNG submitted in correspondences dated April 18, 2013 and May 15, 2013, and we find them adequate. This letter is to inform you that ETNG has complied with the terms of the NOA and that no further actions are necessary with regards to the NOA. This case is now closed.

Please be advised that this letter refers only to the NOA (**CPF 2-2013-1003M**) and not to any other PHMSA pending cases, if any. Also be advised that nothing herein states or implies that the above described IMP procedures meet the requirements of the federal pipeline safety regulations or that the IMP procedures are approved. The pipeline system and IMP procedures remain subject to inspection by PHMSA.

Sincerely,

Wayne T. Lemoine
Director, Office of Pipeline Safety
PHMSA Southern Region
