Dear Mr. Rader:

From October 16-17, 2012, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) inspected the Enmark Energy, Inc. (Enmark) written Public Awareness and Damage Prevention Program at your Madison, MS office pursuant to Chapter 601 of 49 United States Code. As a result of the inspection, PHMSA issued a Notice of Amendment (NOA) on January 24, 2013.

The PHMSA Southern Region received a written response to the NOA dated February 13, 2013. We reviewed the response to the NOA and find Enmark's amended procedures adequate. This letter is to inform you that Enmark has complied with the terms of the NOA and that no further action is necessary with regards to the NOA. This case is now closed.

Please be advised that this letter refers only to the NOA (**CPF 2-2013-6001M**) and not to any other PHMSA pending cases. Also be advised that nothing herein states or implies that the Enmark Public Awareness and Damage Prevention Program meets the requirements of the federal pipeline safety regulations or that the Public Awareness and Damage Prevention Program is approved. The pipeline system and the Public Awareness and Damage Prevention Program remain subject to inspection by PHMSA.

Sincerely,

Wayne T. Lemoie
Director, Office of Pipeline Safety
PHMSA Southern Region
