**RE: CPF 2-2024-010-NOA**

Dear Ms. Little:

On February 14, 2022, to February 17, 2022, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Colonial Pipeline Company's procedures, records, and facilities in New Jersey, Maryland, Texas, Georgia, Louisiana, North Carolina, Tennessee, South Carolina, Mississippi, Alabama, and New York. On July 15, 2024, pursuant to 49 CFR § 190.206, PHMSA issued a Notice of Amendment which proposed amendment of Colonial Pipeline Company's procedures.

Colonial Pipeline Company submitted its amended procedures on May 20, 2025. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed.  
Thank you for your cooperation.

Sincerely,

James A. Urisko  
Director, Southern Region, Office of Pipeline Safety  
Pipeline and Hazardous Materials Safety Administration
