Dear Mr. Tullio:

On June 20-24, July 18-22, August 1-5, September 8-9, and October 20, 2005, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of ConocoPhillips Pipe Line Company (CPPL) procedures in Illinois, Kansas, and Missouri. As a result of the inspection, CPPL was issued a Notice of Amendment on March 16, 2007, which proposed amendment of your procedures.

CPPL submitted its amended procedures on November 19, 2009. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

David Barrett
Director, Central Region
Pipeline and Hazardous Materials Safety Administration
