Dear Mr. Barnhart:

During May and June of 2010, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, inspected Murphy Oil Corporation's (Murphy) procedures for hazardous liquid pipelines in Superior, Wisconsin. As a result of the inspection, Murphy was issued a Notice of Amendment on July 25, 2011, which proposed amendment of their procedures. Subsequent to the inspection, Calumet Specialty Products Partners, LP (Calumet) acquired Murphy Oil's refinery and associated assets (including a PHMSA-regulated pipeline that is the subject of this Notice) on September 30, 2011.

Murphy submitted its amended procedures on August 25, 2011. Calumet provided additional amendments on July 22, 2013. My staff has reviewed the amended procedures and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and that this case is now closed. Thank you for your cooperation.

Sincerely,

David Barrett
Director, Central Region
Pipeline and Hazardous Materials Safety Administration
