Dear Mr. Shamlu:

On August 13-17, 2018, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Enbridge Storage (Cushing) L.L.C. procedures in Cushing, OK. As a result of the inspection, Enbridge Storage was issued a Notice of Amendment on 10-5-2018, which proposed amendment of your procedures.

Enbridge Storage submitted its amended procedures for review during the inspection. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

for Allan C. Beshore
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
