Re: CPF 3-2019-1001M

Dear Mr. Moler:

On March 7, 2017, through August 31, 2017, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Tallgrass Trailblazer Pipeline's procedures in Lakewood, Colorado. As a result of the inspection, Tallgrass Energy, LP (Tallgrass) was issued a Notice of Amendment on March 15, 2019, which proposed amendments to Tallgrass' procedures.

Tallgrass submitted its amended procedures on July 6, 2022. My staff has reviewed the amended procedures, and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary and this case is now closed. Thank you for your cooperation

Sincerely,

Gregory A. Ochs
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
