Re: CPF 3-2020-1009M

Dear Mr. Moler:

On May 7 – 11, 2018, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Tallgrass Energy Partners, LP (Tallgrass) Control Room Management procedures in Lakewood, Colorado. As a result of the inspection, Tallgrass was issued a Notice of Amendment on October 26, 2020, which proposed amendment of your procedures.

Tallgrass submitted its amended procedures on September 24, 2021. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
