Mr. Brad Crist
Sector President, Savage Energy & Chemical
Savage Bakken Connector, Inc.
901 W Legacy Center Way
Midvale, UT 84047

Re: CPF 3-2021-014-NOA

Dear Mr. Crist:

From February 18, 2020, through November 6, 2020, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, inspected Savage Bakken Connector, Inc.'s (Savage) procedures for operations and maintenance, operator qualification, public awareness, damage prevention, facilities and storage, time dependent threats, and emergency response in Williston, North Dakota. As a result of the inspection, Savage was issued a Notice of Amendment on July 22, 2021, which proposed amendment of your procedures.

Savage submitted its amended procedures on June 14, 2022. My staff has reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region OPS
Pipeline and Hazardous Materials Safety Administration
