Re: CPF 3-2021-018-NOA

Dear Mr. Horton:

From June 15 through June 19, 2020, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Texas Gas Transmission, LLC's (Texas Gas), Control Room Management procedures in Owensboro, Kentucky. As a result of the inspection, Texas Gas was issued a Notice of Amendment on April 9, 2021, which proposed amendment of your procedures.

Texas Gas submitted its amended procedures on August 23, 2021. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
