Mr. Gregory Ochs
Director, Central Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration

Re: Mississippi Hub, LLC
Notice of Amendment (CPF 3-2021-055-NOA)

Dear Mr. Ochs,

On September 10, 2021, Enstor Gas, LLC (Enstor) received the referenced Notice of Amendment (NOA). The NOA is a result of the November 2 through 6, 2021 inspection of Mississippi Hub, LLC's (MSH) procedures for Control Room Management related to its transmission pipelines. Enstor has been in ongoing dialogue with Ms. Maureen Williams, Engineer with PHMSA's Central Region, for further clarification regarding the cited inadequacies in the reference NOA. Ms. Williams led the November inspection and has been a great assistance in clarifying the intent and expectations of the NOA cited inadequacies.

Enstor has elected not to contest the allegations set forth in the NOA. Therefore, in accordance with the instructions set forth in the NOA, Enstor (and the cited third-party) are revising its procedures and associated documents to meet the intent and expectations of the cited inadequacies and will provide those changes to PHMSA for review.

We respectfully request a 60-day extension (until December 6, 2021) to finalize these changes due to limited resources and having to coordinate with a third-party to revise their cited documents.

Enstor shares PHMSA's commitment to assuring our pipelines and UNGS facilities are operated in a manner that protects life, the environment, and pipeline/facility integrity.

If you require further information or clarification, please contact Todd Cash, Director, Compliance at 281-374-3085 or todd.cash@enstorinc.com

Kindest regards,

A handwritten signature in black ink, appearing to read "Todd Cash", with a long horizontal line extending to the right.
