Re: CPF 3-2021-078-NOA

Dear Mr. Werth :

On February 10, March 8-9, March 19, and April 12-13, 2021, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted a virtual inspection of Caliber North Dakota LLC's (Caliber) procedures for O&M, integrity management, public awareness, and damage prevention for its Hay Butte Unit near Alexander in McKenzie County, North Dakota. As a result of the inspection, Caliber was issued a Notice of Amendment on December 13, 2021, which proposed amendment of your procedures.

Caliber submitted its amended procedures on January 11 and January 26, 2022. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
