RE: CPF 3-2021-103-NOA

Dear Mr. Sheehy:

From May 7 – 11, 2018 and December 4 – 6, 2018, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code conducted an inspection of Tallgrass Energy, LP's (Tallgrass) procedures for the hazardous liquid Control Room Management procedures and records in Lakewood, Colorado. On December 22, 2021, pursuant to 49 CFR § 190.206, PHMSA issued a Notice of Amendment which proposed amendment of Tallgrass' procedures.

Tallgrass submitted its final amended procedures on May 28, 2025. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

David Barrett
Acting Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration

cc: Crystal Heter, Chief Operating Officer, Tallgrass
Danielle Stephens, Director-PHMSA Compliance, Tallgrass
