PHMSA Pipeline Compliance Registry

RE: CPF 3-2022-019-NOPV, Activity ID 20-179248 – RECORD CORRECTION

Dear PHMSA Pipeline Compliance Registry:

On October 11, 2022, Central Region inadvertently sent a closure letter to compliance requesting closure of the above-referenced enforcement action. However, after a review of the documents resubmitted on each October 26, 2022 and December 8, 2022, it has come to our attention that the Operator had not yet satisfied terms of the Consent Agreement and Order. After a review of the Consent Agreement and Order and the documents submitted by the Operator, the Consent Agreement and Order remains unsatisfied.

Accordingly, it is hereby requested that the PHMSA Compliance Registry reopen the enforcement action for CPF number 3-2022-019-NOPV, Activity ID number 20-179248 until such time as the operator has complied with the terms of the Consent Agreement and Order.

Thank you in advance for your assistance.

Sincerely,

Gregory A. Ochs
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
