Re: CPF 3-2022-051-NOA

Dear Mr. Ramsey:

From April 12, 2021, through October 1, 2021, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), and the Minnesota Office of Pipeline Safety (MNOPS), pursuant to Chapter 601 of 49 United States Code (U.S.C.) Part 195, conducted an inspection of the Flint Hills Resources, LC (FHR) procedures for its Minnesota and Southern Crude system and Northern Operations Group (NOG). As a result of the inspection, FHR was issued a Notice of Amendment on June 8, 2022, which proposed amendment of its procedures.

FHR submitted its amended procedures on November 2, 2022. My staff has reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
