RE: CPF 3-2022-057-NOA

Dear Mr Kuehn:

From August 26 to August 30, 2019, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, inspected Coffeyville Resources Crude Transportation, LLC's (CVR) procedures for Control Room Management in Houston, Texas. As a result of the inspection, CVR was issued a Notice of Amendment on August 3, 2022, which proposed amendment of your procedures.

CVR submitted its amended procedures on April 28, 2023. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region
Pipeline and Hazardous Materials Safety Administration
