RE: CPF 3-2023-015-NOA

Dear Mr. Sheehy:

From September 3 to November 4, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.), inspected by video conference Tallgrass Interstate Gas Transmission, LLC's (Tallgrass) procedures for Control Room Management in Lakewood, Colorado.

Tallgrass submitted its amended procedures on September 18, 2023 and supplemented its response and amended procedures on October 23, 2023 and November 15, 2023. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Gregory A. Ochs
Director, Central Region, Office of Pipeline Safety
Pipeline and Hazardous Materials Safety Administration
