**RE: CPF 3-2023-025-NOA**

Dear Mr. Lentz

From June 27 through August 25, 2022, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code (U.S.C.), conducted an inspection of Magellan Pipeline Company, LP's (Magellan) procedures for Control Room Management in Tulsa, Oklahoma. On September 8, 2023, pursuant to 49 CFR § 190.206, PHMSA issued a Notice of Amendment which proposed amendment of Magellan's procedures.

Magellan submitted its amended procedures on June 17, 2024. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

David Barrett  
Acting Director, Central Region, OPS  
Pipeline and Hazardous Materials Safety Administration
